

# Synopsis

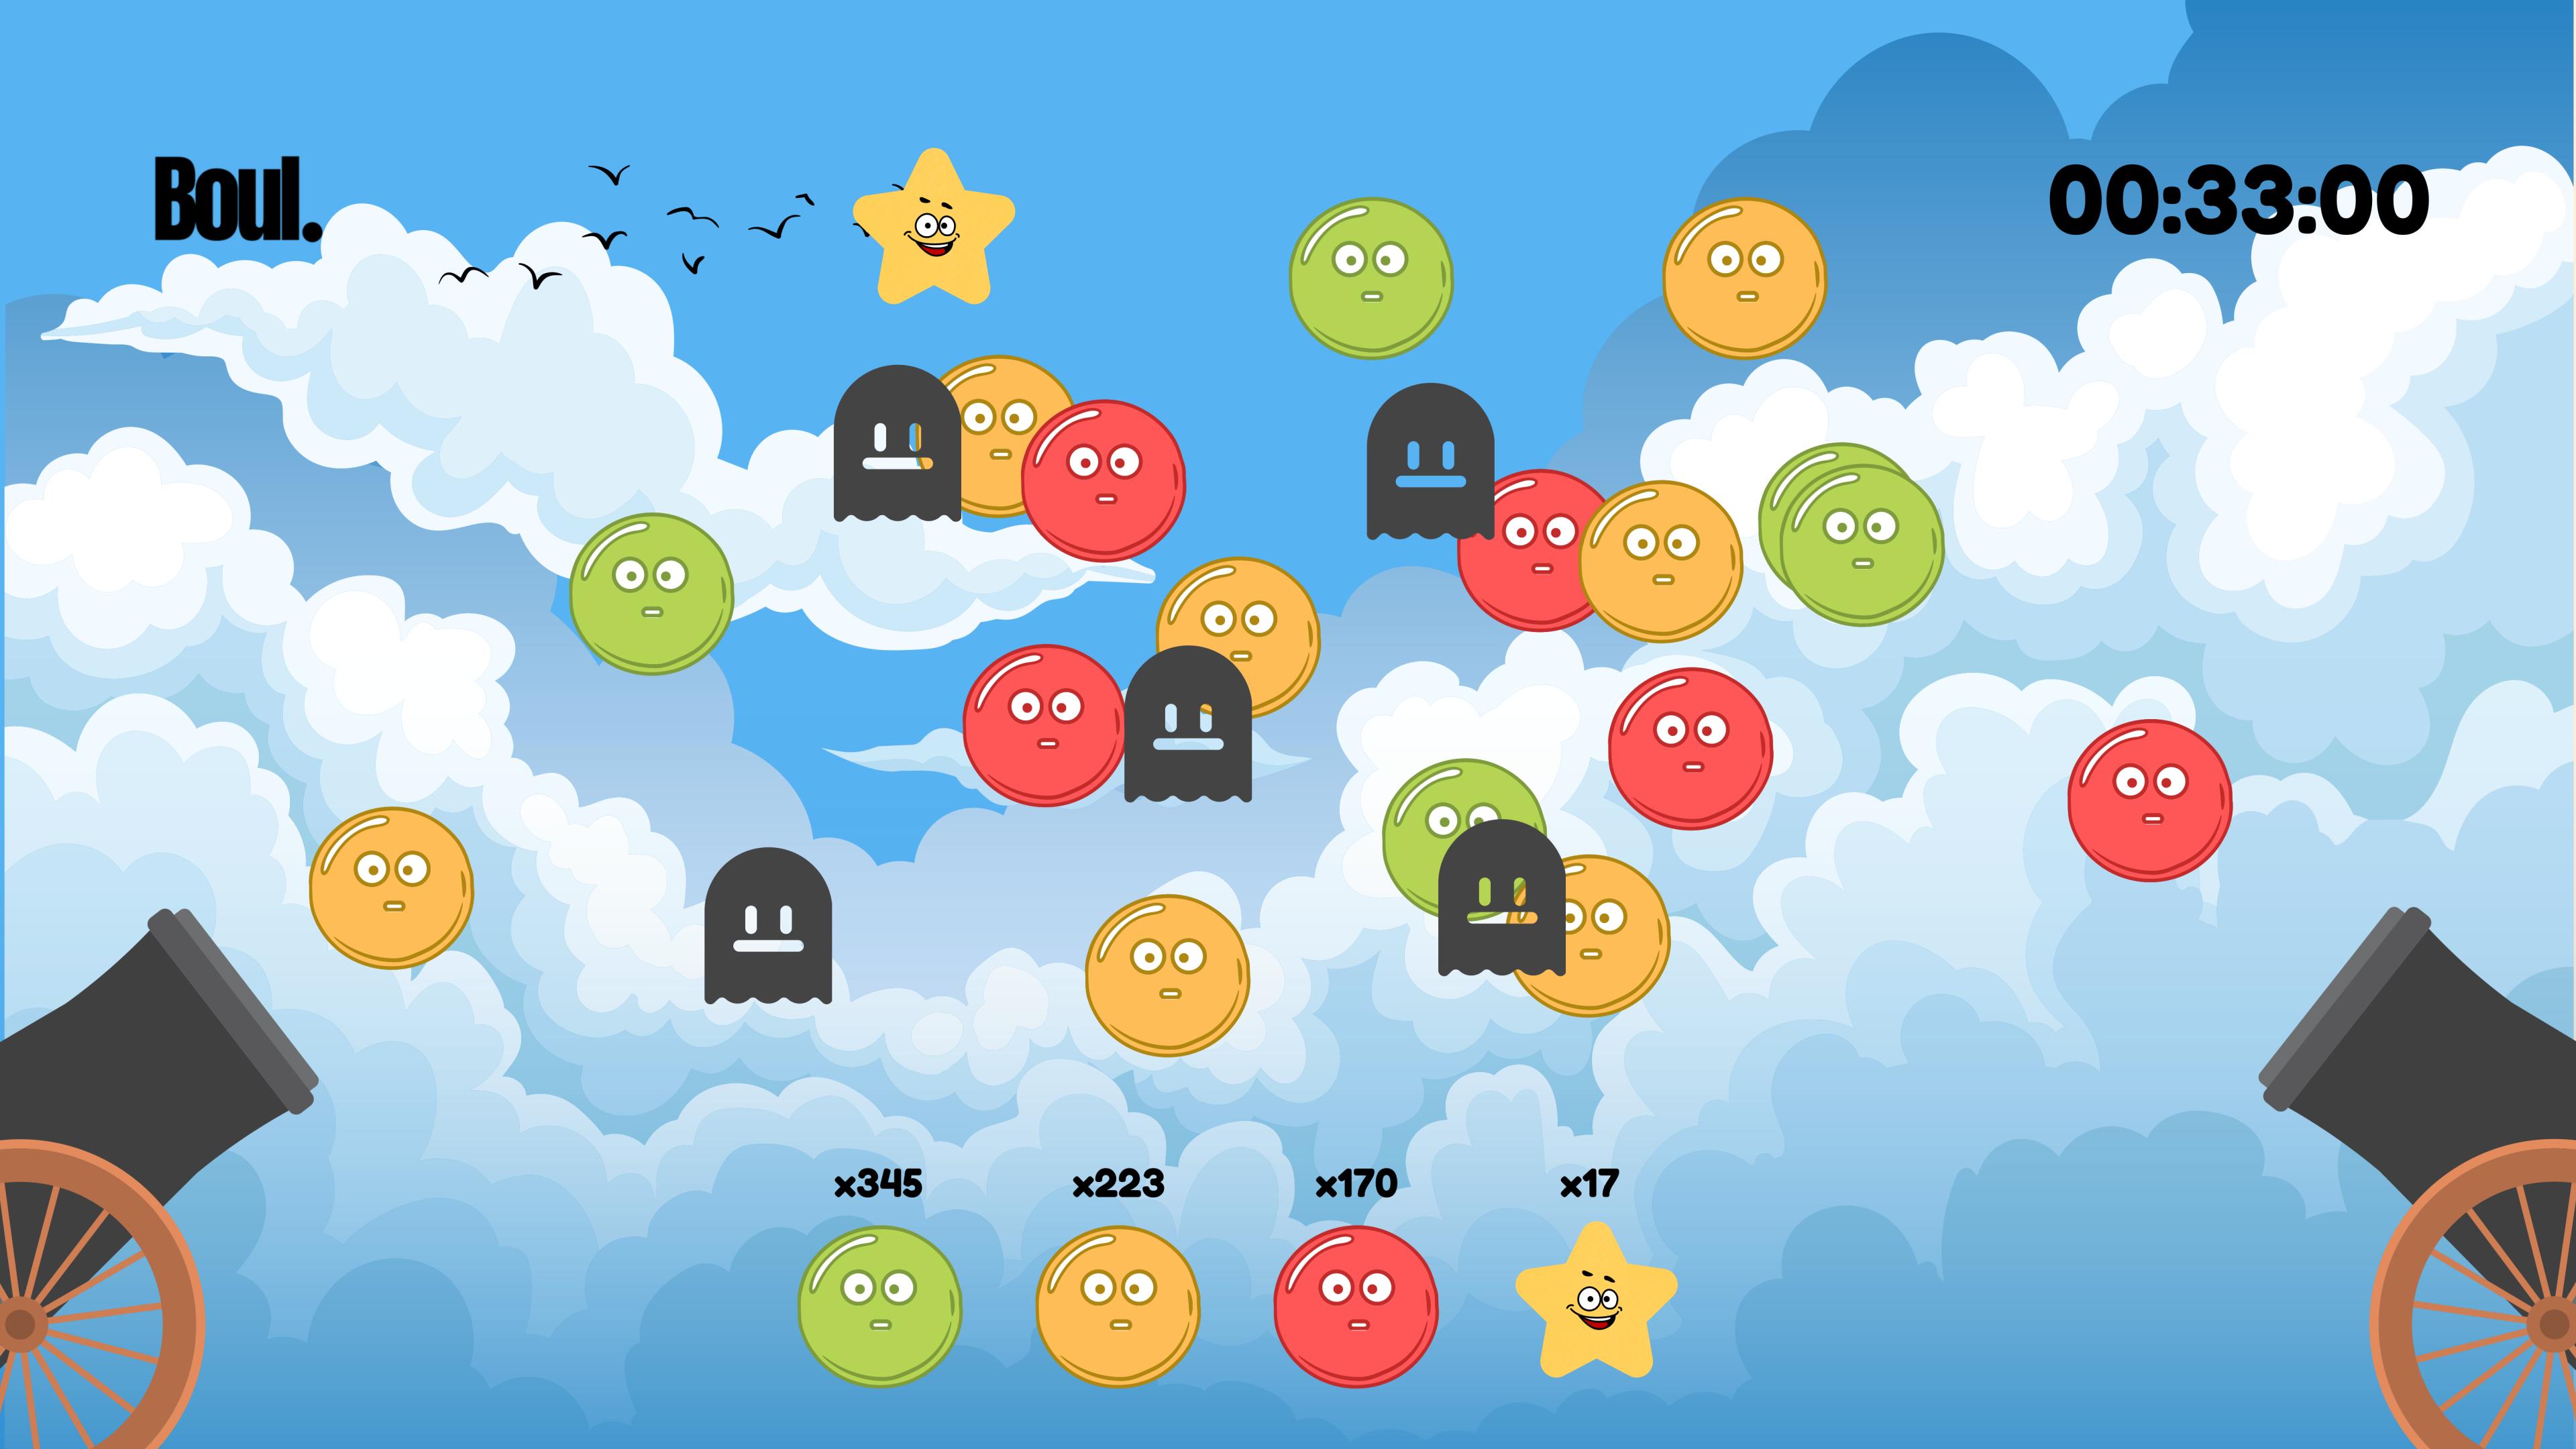

**Boul Kanon set place in the sky or at the bottom of the ocean. The player is trying to see how long they can play the game. You collect three types of balls and a star in the process. Two cannons at the bottom corners of the screen shoot cannon balls. Your goal is to collect as many balls as possible. Be careful. If you miss a ball before it leaves the screen, it becomes a ghost. These characters will multiply exponentially and block your view of the balls. Clicking any of them, or if they fill the screen to a certain percentage, will cause you to lose the game. Try to click on the yellow star, as it appears to clear all the ghosts.**

**The first environment is in the sky amongst the clouds. You can see a group of birds flying in the background. The colors consist of blue, light blue, and white. The clouds look soft and fluffy. It makes you feel safe, sound, and secure. I love the first background. It's beautiful!**

The background of the slide is a stylized underwater environment. It features various shades of blue and teal. In the foreground, there are large, dark silhouettes of rocks and coral reefs. A school of small, light-blue fish is scattered throughout the scene. A single, larger grey shark is positioned in the upper right quadrant. The overall atmosphere is calm and serene.

**The second environment takes place deep down on the ocean floor. You can see rocks, fish, and a shark. The colors are various shades of blue. You gain a sense of calm, peace, and serenity. I believe this background looks fabulous. It's a great addition to the game. I love it!**
